Be A Friend To Trees (Let's-Read-and-Find-Out, Stage 2)

Synopsis

Why should you be a friend to trees? Trees are a valuable natural resource. People depend on trees for food, and animals depend on trees for food and shelter. But most important, we depend on trees because they add oxygen, a gas we all need, to the air. While trees give us many wonderful products, we must also protect them because we can't live without them.

Book Information

Lexile Measure: 500L (What's this?)

Series: Let's-Read-and-Find-Out Science 2 (Book 1)

Paperback: 32 pages

Publisher: HarperCollins; Revised edition (January 30, 1994)

Grade Level: Kindergarten - 4

Customer Reviews

I am teaching a non-fiction unit on plants. This book has all the keys parts of an informational text that I wanted to teach in easy to understand format. Wonderful, informative book for the lower grades.

useable, but more used/worn than I thought it would be. used for preschool lesson and science area reading with some repairs to pages

We need ALOT more books like this for kids:-) My boys love it and for the first while I had to read it to them every night:-)

This book was suggested by NSTA for use in primary science classes. I plan to use it when we begin our unit on plants.
