Customer Reviews

The first time I read this book, I was a young child. I loved it then, and love it just as much today. And I strongly believe that reading it made me a much better person by showing me that there is beauty and worth in every person, and meaning to every life, however short or beset by handicaps. The book is written in the voice of Robin Elizabeth Rogers, a Downs syndrome baby (born to Roy Rogers and Dale Evans Rogers), who died at the age of two. That baby was dearly loved, and deeply enriched the lives she touched. It begins with her birth, and ends when she leaves to go to heaven. The book is written in a very positive manner, rejoicing in the life she lived (and the joy she brought others). I think this would be a wonderful book for virtually anyone -- and, IMHO, that it would make a thoughtful gift for those who have a handicapped child, or who have lost a child. For it emphasizes the beauty, worth, and meaning of each life, however short. I cannot sufficiently recommend this book. I love it.

I read *Angel Unaware* as a senior in high school in 1966. It stayed in my book collection as I moved

to various states throughout my adult life. Then, thirty-one years later (8/26/1981) to the day of Robin's birth (8/26/1950), my "Angel" was born. I knew I had the book somewhere stored away. When Julie was 2 months old, I found the courage to look for it and stood right there in the basement by the open box of books and reread and cried as I realized that she and Robin shared the same day for their birthdays. We have come a long way, both in medical and personal support for persons with Down syndrome. But through the years, I have gone back and read the book again feeling a connectedness of Robin's "Angel spirit" to that of my daughter.

When I found out that Roy and Dale Evans had so much heartache in their marriage and child rearing, I was most anxious to read this book, *Angel Unawares*. I first read the book immediately after I had found out that I too was the Mom of a very special little girl, so this book as told by Dale was a great source of strength and encouragement to me. I would certainly hope every new parent of a special child could have this book for reference. It really helped me! Not only did I realize that challenges face movie stars as well as common folks, but I realized that I certainly was not alone and this book was a real spiritual and emotional blessing to me!

My mother remarried when I was almost 12 years old. My sister and I stayed with family friends while she was on her honeymoon. They had a copy of "Angel Unaware". I read it everyday after school that week. It was one of the most beautiful stories I have ever read. I have never been able to get it out of my mind. I am absolutely thrilled to see it in print again. I spent several years before the internet looking for a copy. If you haven't read it you need to put it on your "must read list". You'll never be able to forget it either.

I read this book for the first time when I was a very young girl, probably about 12 years of age. I loved it then and have always wanted to re-read it. I recently found another copy and just finished reading it. I found it to be even more wonderful now that I am fully grown and a mother myself. The book brought tears to my eyes and I will always cherish the reading of this book. I would love to see everyone read this book. It really puts things in perspective.

I received this book for my 10th birthday from my parents, many years ago. At the time, I was very impressionable and this book made a significant impact on my life. I learned then that what we as fallible humans consider to be "imperfect" according to our standards of ignorance and bias is usually the most precious of all things to God. Now, I have a two-year-old son with Down Syndrome

and I can relate in so many ways to this book. As I look back over my life and various correlating events that have taken place, I see that God was preparing me to be the mother of a special needs child all along. And it all started with this one little book.

Dale Evans' tells this story from a child's point of view, before and after she was sent to earth. This unique perspective allows the author to explain all that she found "right" about her "afflicted" Down syndrome child, and all the gifts she truly offered her family.

I doubt even Dale Evans knew how much this little book would touch lives. It was published in 1953 and my 6th grade teacher read the book to all of us in her class years later. Of course, we were all Dale and Roy's fans so we could not wait until the next day when she read another chapter. It is one book that I have read over and over again. It is amazing how Dale got Robin's message which was told from her point of view. If you want to read a book that is life touching, then read "Angel Unaware". The Bible verse from Hebrews is still my favorite verse.
