## **Customer Reviews**

A wonderful introduction to farm life is this beautifully illustrated children's book. With rhyming prose and full-page illustrations, "Red Are the Apples" is a delight for rural dwellers and city folk alike. Each page takes the young reader through different crops and other elements of a thriving farm. The fun lies also in finding the hen that appears on almost every page. That becomes a "search" that the child will delight in taking. This is a five-star book that I had the pleasure of sharing with my four-year-old niece.

Like other reviewers have stated, this book takes you through fall harvest time on the farm. It also takes the reader to canning and the cider making. The pictures are vivid and beautiful with lots of details. The writing is simple and rhyming. Great for young children.

My 2 month old loves this book! The large paperback format, vividly bright colors, chunky pastel illustrations, and simple lyrical words are the perfect book for babies. It's long enough to engage

them, but brief enough to keep their short attention spans. After reading it to my own baby every day for a week or so, I have nearly all the words memorized and can simply show him the illustrations while I recite the words. I was so impressed with this book, that I'm going to order other titles illustrated by Wade Zahares.
