The Field Guide To Dinosaurs (Field Guides)

Synopsis

The Petrified Forest of Arizona seemed like the perfect place to start to search for fossils,â• writes our hero in his 1929 journal. Thus begins the exciting hunt for dinosaurs and their prehistoric secrets in *The Field Guide to Dinosaurs*. Through a series of journal entries, readers uncover the mysteries of the dinosaur kingdom; from the speedy and agile *Coelophysis* to the existence of Pangaea, the landmass of some 227 million years ago when all of the continents were one. Junior paleontologists can experience the excitement of a dig as they rifle through maps, illustrations, and engaging interactive elements, including seven dinosaur models and a museum-ready diorama that they can easily assemble themselves.

Book Information

Series: Field Guides

Flexibound: 32 pages

Publisher: Silver Dolphin Books; Nov edition (August 26, 2014)

Language: English

ISBN-10: 1626860041

ISBN-13: 978-1626860049

Product Dimensions: 8.8 x 1.5 x 10.2 inches

Shipping Weight: 15.5 ounces

Average Customer Review: 4.6 out of 5 stars Â See all reviews Â (8 customer reviews)

Age Range: 8 and up

Grade Level: 2 and up

Customer Reviews

My 6 y.o. son just discovered these books today. He received them for Christmas but never showed an interest. Today he has put together all the paper models from 3 of the books. He is loving it. This is a good book for children who enjoy legos or something like that, where they are following directions to build something. Their fine motor skills need to be pretty good as the pieces are very small. There are pictures for the directions so the child doesn't have to read to put them together. I like the information that each page provides about the animal...as well as a map regarding where

they can be found. Very cool science type book and could be used for homeschool.

My son has been waiting for this book and when he got it he was so happy. Crazy price-used but looks brand new. Thank you.

My 7 year old grandson mastered the models quickly and loves it. My 5 year old granddaughter works at it when the aforementioned grandson allows. My 4 year old grandson likes playing with the models his brother makes.

Loves it!!!! The 3d puzzles are the best but you need to be careful with them. The discription are good. She has not put it down since we bought it
