Customer Reviews

I love this series of books! I use them with my second graders when we do our non-fiction reports. This particular book (series) is great for lower readers / struggling readers. Lots of great pictures, non-fiction text features, and big print makes it easy for even struggling readers to gather important facts and be successful while their peers are working with higher level texts.

It's a book. My kids reads it.

gave to teacher for gift to complete her set, she loves it!

Great class resource
