A Drop Of Water

Synopsis

A child crouches beside a meadow brook, and a drop of water collects and falls from the child's fingertip to continue on its journey. Where does that journey begin? High in the sky, rain clouds are parting. Water trickles and flows down the mountain, collecting in an upland bog, seeping through a beaver's dam, rushing over rocks, passing many plants and animals along its winding way, each dependent on water and the different environments it shapes to live. Author and illustrator Gordon Morrison has captured a single moment in time, revealing the course and influence of water, and inviting readers to pause and consider the world around them in this beautiful and lyrical appreciation of nature and the resource that makes it all possible—a drop of water.

Book Information

Hardcover: 32 pages

Publisher: HMH Books for Young Readers (October 23, 2006)

Language: English

ISBN-10: 0618585575

ISBN-13: 978-0618585571

Product Dimensions: 11.2 x 8.9 x 0.4 inches

Shipping Weight: 13.6 ounces

Average Customer Review: 3.5 out of 5 stars [See all reviews](#) (4 customer reviews)

Age Range: 4 - 7 years

Grade Level: Preschool - 3

Customer Reviews

Gordon Morrison's A DROP OF WATER also tells of a big journey begun with a small event. A drop of water falls from a child's fingertip to eventually journey back to the sky, flowing down a mountain, collecting in a bog, seeping through a beaver's dam and more in the process. Large, lovely drawings illustrate the process. These are all lovely, unique acquisitions.

Wonderfully written and illustrated. The whole series is cherished in our family. Entertaining for the

pre and early readers and educational for older readers.

The pictures are good but the story in itself was difficult for children who view picture books.

I was looking for a story to introduce the rain cycle to my preschoolers. I felt it was a bit wordy. It would be good for an older group of students.
